SUMMARY

Bilingual (EN/ES) frontend and full-stack developer based in Costa Rica. Nearly a decade across legal, executive, and customer-facing roles, now building production web apps with Next.js, TypeScript, and modern AI tooling. I pair real business and legal workflow knowledge with frontend craft to ship tools people actually use. Self-taught, with a live client site and several full-stack projects shipped.

SELECTED PROJECTS

FareWise: AI Flight Search

Next.js · TypeScript · Claude API · SerpApi

Turns plain-language travel intent into live fare options, using the Claude API for reasoning and SerpApi for real-time results.

Leonie Dubuc: Client Site

LIVE IN PRODUCTION

Next.js · Tailwind · framer-motion · i18n (EN/DE)

Production site for a German voice-over actress. Custom design system, magnetic interactions, bilingual routing, and German legal compliance pages (Impressum, Datenschutz).

Hollow Ronin: Headless E-commerce Brand

Headless Shopify · Printify · AI art pipeline

Drop-based streetwear brand built end to end: storefront, brand identity, and an AI-driven art workflow.

Sana: Bilingual Companion App

Next.js · Tailwind · shadcn/ui · next-intl · Supabase (RLS)

Personal-injury companion app with authentication, Supabase row-level security, and full EN/ES internationalization.

Caseflow: Internal Legal Automation Tool

CONFIDENTIAL

Next.js · React · TypeScript · Tailwind · Vercel

Case-management and records-request automation built for a law firm. Document and PDF generation plus workflow automation that removed repetitive manual steps.

TECHNICAL SKILLS

Frontend	Next.js (App Router), React, TypeScript, Tailwind CSS, shadcn/ui, framer-motion
Full-stack	Supabase (auth, row-level security), REST / API integration, headless commerce (Shopify, Printify)
AI	Claude API integration, AI-assisted development, AI image tooling (Midjourney, Adobe Firefly)
i18n & Deploy	next-intl, bilingual routing, Git, GitHub, Vercel, VS Code
Languages	Spanish (native), English (fluent, C1), German (beginner, A2)

EXPERIENCE

Legal Assistant, Shaked Law Firm, San José, Costa Rica

Jan 2024 – May 2026

Managed case files and records-request workflows, coordinated with hospitals, clinics, and external facilities, and prepared trial documentation under deadline. Built Caseflow, an internal tool that automated records requests and document generation for the team.

Executive Assistant, CTRL+X, Berlin, Germany

Apr 2023 – Jan 2024

Managed schedules and logistics for the leadership team in a creative coworking environment, handled client-facing front-of-house duties, and communicated across language barriers.

Earlier roles · client and customer-facing

2017 – 2023

Receptionist (Selina, Tamarindo), Content Review Specialist (Accenture), and Customer Service (DHL, Teleperformance). A decade of reliability in fast-paced, deadline-driven, multilingual environments.

EDUCATION

GED (high school equivalency). **Self-taught web development** (ongoing), learning Next.js, TypeScript, and full-stack tooling by building real, shipped projects.
